THE PLOT

Arthur J Hackensack, powermad oil billionaire, Texan landowner, Chairman of several major film studios, and proprietor of the Ritz Bingo Hall in Milton Keynes (open most weekday nights from seven thirty onwards), craves World domination.

To this end, he has kidnapped the World famous paranormal scientist Professor Frobisher Goonhilly, forcing him to work on a weapon of awesome destructive power. (During his years of psychic research, the professor had perfected a means of storing the negative energy produced in haunted buildings, hoping this would lead to a new non-polluting power supply).

Using the strange matter warping properties of negative psyche, Goonhilly's super weapon changes the Isle of White into a large Custard Slice as a demonstration to the World of Hackensack's evil intent.

At first it seemed as though nothing could stop Hackensack, with New York being turned into an enormous Bath Sponge (except curiously no-one noticed). Paris refused to capitulate until the Eiffel Tower was turned into a toast rack and two piece Condiment set. Neither was the Tower of London spared, as the Ravens were transformed into Ostriches which rather surprised the Beefeaters, but not half as much as it surprised the Ravens!!

With conventional forces being useless against psychic energy the World Governments looked to a new breed of hero, and so Blinky, spooky star agent of S P E C T R E, is immediately put on the case. Armed only with an ectoplasmic gun and a case full of disguises, the courageous spook is parachuted onto the deck of Hackensack's base ship, the newly raised SS Titanic.

S P E C T R E is the Society for the Prevention of Ectoplasmic Crime, Telekinetic misuse and Reality Endangerment
